# Curran Bhatia

(408) 802-3627 | currankbhatia@gmail.com | curranbhatia.me

### **EDUCATION**

# **University of Illinois at Urbana-Champaign Bachelor of Science in Computer Science and Statistics**

**Relevant Coursework:** Statistical Analysis (R), Data Structures(C++), Computer Architecture, Probability & Statistics I (Spring 2016), System Programming(Spring 2016), Bioinformatics (Spring 2016)

### **EXPERIENCE**

### Soundia - Cupertino, CA

July - August 2015

Expected: May 2018

- Soundia is a mobile application that allows users to stream a song through multiple phones; a prototype of the application was built at AngelHack Silicon Valley 2015 in a group of three.
- During AngelHack, contributed to the UI and the presentation of the product.
- Pitched the product to a large audience at AngelHack, and placed in the top six teams out of over sixty teams.
- Designed artwork using GIMP and Sketch, and after the hackathon continued on project and worked with Unity's User Interface Builder.

## **Software Intern at Bleacher Report** – San Francisco, CA

June - August 2014

- Developed a Google Chrome Application to display stories of different sports feeds in real-time, using HTML, CSS, Javascript and JQuery.
- Set up a Raspberry Pi mini-computer to display analytics on TVs.

#### Project Associate at Illinois Enactus - Champaign, IL

September - December 2015

- Illinois Enactus is a social entrepreneurship organization out of UIUC's College of Business that focuses on creating sustainable change through business/entrepreneurial methods.
- Worked on logistical sustainability of local Champaign-Urbana non-profit that supports teenage mothers
- Assessed the non-profit's operations and made appropriate recommendations to implement within the organization, including creating a donation website, delegating concrete roles within management structure, and providing methods to enhance participation within workshops.
- Developed a 12-page plan for the non-profit, so it can continue in the future with standard protocols for running the organization.

#### **Orientation Leader** – University of Illinois at Urbana-Champaign

August 2015

- Led a group of new international students for four days to acclimate them to the University of Illinois.
- Developed as a leader by facilitating ice-breaker team building games and by giving presentations about various services on campus.
- Trained with a class for two hours every week during the Spring Semester.

# Summer Intern at Open Networking Lab – Menlo Park, CA

June - August 2013

- ON.LAB is a consortium of Stanford University and UC Berkeley. They develop tools for Software Defined Networking (SDN).
- ◆ Tested Open Networking Lab's network emulator, Mininet and its Network Operating System, ONOS.

#### SKILLS & LANGUAGES

**Technical Skills:** Java Programming, C++, HTML, CSS, Javascript, Linux, Git, GIMP, Sketch, Raspberry Pi **Foreign Languages:** Spanish- High School Level 4
